

Why GEHRIMED?

PALTC-Specific Templates

We provide both built-in and customizable encounter note templates that are intuitively designed to collect only the information you need when you need it, saving you hours worth of time each week.

Automated Encounter Delivery

Digitally share important patient reports with any member of your facility's interdisciplinary team. As soon as you sign them, they go where they need to go.

Real-Time MIPS Dashboard

Easily track your progress in the Center of Medicare and Medicaid Services' Merit-based Incentive Payment System with alert notifications for relevant quality measures, a visual representation of your progress throughout the year and more.

RVU Dashboard

Track your individual productivity, as well as the productivity of your partnering providers. Every time someone sees a patient, signs an encounter or assigns a CPT code, these data points populate in this dashboard.

Tools That Keep You Connected and On Schedule

GEHRIMED provides you with secure mobile access to internal messaging, simple scheduling, triage tools, standard reports and more so you can provide better coordinated, more efficient care no matter where your practice takes you.

Onboarding and Training Assistance

Our robust use support portal provides product guides, demo videos, education forums and more to help GEHRIMED users succeed from day one. And if you prefer more direct training from our staff, we offer live, personalized sessions as well.

Unbeatable Support

Our entire staff is ready, willing and able to help every GEHRIMED user with any needs they may have. From onboarding questions to troubleshooting inquiries, our in-house technical support team is here to provide you with 24/7 customer assistance. This outstanding care is one of the most-loved benefits of current GEHRIMED users.
